Subic Bay Freeport Zone

REFERANCE: To whom it may concern

This letter is to confirm we have used Migs and his team at McGram Fusion and now under their new name of Asia Pacific Marine Resources on numerous occasions over the last 3 years for work and supply of stores for my 75' motor yacht LOST in ASIA.

The work included the following specific projects;  
Manage our dry docking at Herma Shipyard.  
Fabricate and fit our aluminum exhaust stack and mast.  
Fabricate and replace our main generator dry exhaust system.  
Rewire much of our AC electrical system including installing new electrical panels.  
Fabricate an aluminum base for our hydraulic crane.

We also continue to utilize Migs' team in sourcing difficult to get boat specific stores and spares.

I have found Migs and his team to be punctual, helpful and accommodating to all manner of issues and I have no hesitation in continuing to use them and recommending his firm for any boat related projects.

I would be happy to confirm the above personally should confirmation be required.

Respectfully yours,

Peter Baird  
Owner & Captain

**MY LOST IN ASIA.**
